Sohanur Rahman Sohan

Power Platform Developer & Solution Builder

Dhaka, Bangladesh · srsohan014@gmail.com · linkedin.com/in/srsohan014 · github.com/SRS014 · thefusionplatform.wordpress.com

Summary

Power Platform Developer and Solution Builder with 4+ years of designing and building connected enterprise solutions across business applications, automation, data and AI. Specialises in Power Apps, Power Automate, Power BI, Dataverse and Dynamics 365 Finance and Operations, with a focus on integrating D365 F&O with the Power Platform. Delivered 15+ custom apps and workflows, led a Power Apps team, mentored junior developers and worked closely with business stakeholders. Current focus: Copilot Studio and AI agents.

Experience

Power Platform Developer, Power Apps and D365 F&O Integration Specialist · Data Crafters, Dhaka, Bangladesh

January 2025 – present

- Lead the Power Apps team; our low-code apps cut manual workload by 40%.
- Build Power Automate workflows for approvals, notifications and data sync.
- Integrate the Power Platform with D365 F&O and Dataverse for real-time data flow and reporting.
- Work with cross-functional stakeholders to shape requirements and deliver projects.
- Mentor junior developers and introduce practices for app design, testing and deployment.

Associate Power Platform Developer, Power Apps and Automation Analyst · Data Crafters, Dhaka, Bangladesh

May 2023 – December 2024

- Built scalable Power Apps for request tracking and operational workflows.
- Automated data flows and approval chains with Power Automate cloud flows.
- Integrated D365 F&O with the Power Platform for secure, consistent data exchange.
- Designed and tuned Dataverse tables and relationships.
- Supported Power BI reporting with clean data models and real-time integration.

Junior Data Analyst, Power BI and Data Modeling · Data Crafters, Dhaka, Bangladesh

November 2022 – June 2023

- Built Power BI dashboards on SQL Server, Dataverse and Excel sources.
- Cleaned and shaped data with Power Query and DAX.
- Built Power Apps data sources from SharePoint and Dataverse for embedded reporting.
- Automated approvals and alerts with Power Automate.

Data Analyst Intern, Excel and Power BI Trainee · Data Crafters, Dhaka, Bangladesh

May 2022 – October 2022

- Prepared datasets and built Power BI dashboards for sales and operations trends while learning Power Query, DAX and visualisation principles.

Python Programming Instructor · Pythonista Planet

January 2022 – October 2022

- Taught core Python, data structures and object-oriented programming.

Data Science and Business Analytics Intern · The Sparks Foundation, Remote

March 2022

- Completed projects in data science, machine learning and analytics with Python.
